

workshop  
**Nanoscale Optical Chirality**

Pisa (IT), 27-28 June 2019

THE WORKSHOP IS INTENDED AS AN INFORMAL OCCASION TO SHARE NOVEL RESULTS AND IDEAS ON NANOSCALE OPTICAL CHIRALITY AND SUPERCHIRALITY, BOTH EXPLOITING METAL AND DIELECTRIC STRUCTURES, AND TO FAVOR THE SYNERGY BETWEEN RESEARCHERS IN CHEMISTRY AND PHYSICS WHO ARE INTERESTED IN THE TOPIC.

THE WORKSHOP WILL HAVE NO REGISTRATION FEES AND WILL FOLLOW THE CD 2019 CONFERENCE (17TH INTERNATIONAL CONFERENCE ON CHIROPTICAL SPECTROSCOPY) THAT WILL TAKE PLACE IN THE SAME LOCATION FROM JUNE 23RD TO JUNE 27TH ([HTTP://CD2019.DCCI.UNIPI.IT/](http://cd2019.dcci.unipi.it/)).

**ORGANIZATION:**

- Paolo Biagioni  
*Politecnico di Milano*
- Lorenzo Di Bari  
*University of Pisa*

**WITH THE SUPPORT OF:**

17<sup>th</sup> International Conference  
on Chiroptical Spectroscopy

UNIVERSITÀ DI PISA

**PLASMONICA**  
[www.plasmonica.it](http://www.plasmonica.it)

**All research groups interested in the topic are invited to attend the workshop and share their results. Registrations are open!**

**Please write an email to [paolo.biagioni@polimi.it](mailto:paolo.biagioni@polimi.it) before April 30th to register and submit your contribution (both oral and poster sessions will be organized)**
